IL FANALE

Da oltre quarant'anni ci dedichiamo alla creazione di *Opere di Luce* che uniscono sapientemente *design* e *artigianalità*, celebrando il Made in Italy. Utilizziamo materiali tradizionali come ottone, rame e ferro, rendendoli unici attraverso un processo chiamato "anticatura". Grazie alla nostra produzione locale e alla cura nella progettazione, realizziamo progetti unici, senza limiti di forma o scala. Benvenuti nel mondo delle lampade che riflettono lo spirito mediterraneo e l'artigianato fatto con passione e maestria.

For over forty years, we have been dedicated to creating *works of light* that skillfully blend *design* and *craftsmanship*, celebrating the essence of Made in Italy. We use traditional materials such as brass, copper, and iron, making them unique through a process called "antiquing." Thanks to our local production and attention to design, we realize unique projects without limits of shape or scale. Welcome to the world of lamps that embody the Mediterranean spirit and craftsmanship made with passion and mastery.
